Northwind Labs IT Handbook (fictional sample document)
Page 1 - Laptops and software

New employees receive their laptop on their first working day.
Engineers can choose a 14-inch laptop with either Linux or macOS.
Laptops are replaced every 3 years.
Software with a paid licence must be requested through an IT ticket;
free open-source tools may be installed without approval.

The VPN must be used on any public or hotel Wi-Fi network.
The company VPN client is called NorthGate.
The staff Wi-Fi network in all offices is NW-Staff.
The guest Wi-Fi password changes every Monday and is shown at reception.

Page 3 - Support and backups

IT support tickets are raised at helpdesk.northwind.example.
A complete IT outage is treated as an IT P1 and gets a response within 30 minutes.
Standard tickets are answered within 1 business day.
Laptops are backed up every night at 01:00 IST to the company cloud,
and backups are kept for 90 days.
